SMARTBRIDGE
Let's Bridge the Gap

Solution Requirements

Project Design Phase-II (Functional & Non-Functional)

SKILLWALLET
A SmartBridge Product

Date	31 January 2026	**Team ID**	TEAM-FUEL-08
Project Name	Global Fuel Price & Taxation Trends	**Maximum Marks**	4 Marks

Functional Requirements

FR No.	Requirement (Epic)	Sub Requirement (Story / Sub-Task)	Priority
FR-1	Data Access & Integration	Integrate global country fuel datasets (USD/Liter), national tax rates, income-level classifications (High/Middle/Low), and monthly Brent Crude benchmark records.	High
FR-2	Data Processing	Normalize currency values to USD/Liter, handle regional tax percentage scaling, and group global countries into high vs low income brackets.	High
FR-3	Business Analysis	Calculate regional average petrol prices, average tax percentages by country, and correlate Brent Crude fluctuations against end-user fuel costs.	High
FR-4	Analytical Outputs	Generate interactive Tableau charts: Global Petrol Price Map, Fuel Price vs Tax Scatter Plot, and Tax Percentage by Country Bar Chart.	High
FR-5	User Interaction	Enable dynamic filtering by country (e.g. Rwanda, Germany), region, income level, and time slider navigation.	Medium
FR-6	Reporting & Export	Provide summary KPI cards (KPI Average Petrol Price) and export-ready analytics reports for executive decision-making.	Medium

Non-Functional Requirements

NFR No.	Requirement	Description
NFR-1	Usability	Intuitive UI on Tableau Public with color-coded legends, interactive tooltips, and easy country-level cross-filtering.
NFR-2	Security	Ensure read-only access to published Tableau dashboards and compliance with public data distribution standards.
NFR-3	Reliability	Ensure 99.5% dataset uptime and accurate statistical calculations without missing country records.
NFR-4	Performance	Dashboard visual renders and filter responses must execute within < 2 seconds under active interaction.
NFR-5	Availability	Web dashboard accessible 24/7 on Tableau Public server infrastructure.
NFR-6	Scalability	Capable of appending annual global fuel price and tax policy update datasets seamlessly.
