SMARTBRIDGE

SKILL WALLET — A SmartBridge Product

Communication Plan

Date	15 March 2026	Team ID	en25cs3030039DS
Project Name	Global Fuel Price and Taxation Trends	Maximum Marks	1 Mark

Effective communication was essential for successful execution, Snowflake ETL development, and Tableau Public dashboard integration. This document details the communication strategy and issue resolution protocols utilized throughout the project lifecycle.

COMMUNICATION PLAN

S.No	Communication Type	Frequency	Channel / Tool	Participants	Purpose
1	**Team Standup**	Daily	Discord / Slack	Entire Team	Review daily ETL script progress and dataset cleaning milestones.
2	**Progress Update**	Weekly	Microsoft Teams	Team & Mentor	Demonstrate completed Snowflake views and Tableau chart sheets.
3	**Issue / Bug Discussion**	As Needed	GitHub Issues / WhatsApp	Data Engineers	Resolve SQL query errors, null values, and formatting mismatches.
4	**Stakeholder Review**	Bi-Weekly	Zoom	SmartBridge Evaluators	Present project milestones, quality checklists, and KPI performance.
5	**Final Demo Rehearsal**	Once	Google Meet	Entire Team	Dry run of the complete 8-chart Tableau dashboard presentation.

COMMUNICATION CHALLENGES & RESOLUTIONS

S.No	Challenge Faced	Resolution / Action Taken
1	Discrepancies in currency units across global fuel datasets (Liters vs. Gallons).	Established a dedicated technical sync to standardize all volume metrics to USD per Liter in Snowflake staging views.
2	Alignment on Tableau Public dashboard color schemes and layout structure.	Created a shared Figma wireframe mockup and agreed on a unified navy/slate corporate design palette.
3	Coordinating time slots for full-team live demonstration practice sessions.	Scheduled asynchronous dry-run video recordings and conducted one final mandatory live rehearsal session.
